

UK NATIONAL CONFERENCE ON COMPUTATIONAL MECHANICS IN ENGINEERING
Southampton 29-31 March 2010

Conference website: <http://www.civil.soton.ac.uk/ACME2010>

The 2010 Conference will take place at the University of Southampton, under the auspices of the UK Association of Computational Mechanics in Engineering (ACME). It will be hosted by the School of Civil Engineering and the Environment, in the Faculty of Engineering, Science and Mathematics.

The Association was formed in March 1992 to both promote research in computational mechanics within the UK, and to establish formal links with similar organisations in Europe and worldwide. The Association is affiliated to the European organisation ECCOMAS and the international organisation IACM.

ACME conferences have proven to be highly successful technical meetings, with their relative informality contributing to extensive discussion and the presentation of new concepts and ongoing research.

Invited speakers:

Michel JEAN, Laboratoire de Mecanique et d'Acoustique CNRS ESM2, Marseille, France
(Non-smooth Contact Dynamics)

Nick KOUTSABELOULIS,
Vice President & General Manager - Schlumberger Reservoir Geomechanics Centre of Excellence,
U.K.
(Computational Geomechanics)

Paul G. TUCKER,
Professor of Engineering, Cambridge University Engineering Department, U.K. (Computational
Aeroacoustics)

Important dates:

Abstract submission deadline: 22 January 2010

Notification of acceptance: 29 January 2010

Submission of 4-page paper: 1 March 2010

Contact:

Dr Antonis Zervos

Senior Lecturer in Civil Engineering,

Geomechanics Research Group,

School of Civil Engineering and the Environment,

University of Southampton,

Southampton SO17 1BJ, UK
